Decision Drys a Big Section of Minnesota

Ruling of Supreme Court in Indian Liquor Case will Shut Out Booze from 15,000 Square Miles of State.

[By Leased Wire to Evening Herald.]
Minneapolis, Minn., June 9.—When the United States supreme court reversed the decision of the district court in the so-called Indian liquor case yesterday, the action not only had the effect of "dry-ing" a 15,000 square mile section in central and northern Minnesota, but may cause two-thirds of the state, including Minneapolis and Duluth, to be placed in the prohibition column.

Although the decision of yesterday directly affects only the territory covered by a treaty of the government with the Chippewas in 1855, it was believed by many familiar with the case that the decision is equally effective in regard to two previous parts covering the greater portion of southern and western Minnesota and from which the prohibition clause in the 1855 document was copied.

Looks Blue to Brewers.
St. Paul, Minn., June 9.—Although there was considerable speculation here today as to the possible effect of the Indian liquor case decision yesterday by the supreme court, state officials were reluctant to discuss the subject until they had received and studied a copy of the decision.

F. W. Zollman, attorney for the Minnesota Brewers' association, said today if newspaper accounts of the decision were true "the law" would go on in part or all of fifteen counties.

"If the court has held that the treaty of 1855 still is valid," Mr. Zollman said, "the sale of liquor is prohibited."

ITALIAN STRIKE HAS SPREAD TO MANY OF THE LARGER CITIES

[By Leased Wire to Evening Herald.]
London, June 9.—Partial success has attended the general strike proclaimed yesterday as a protest against the government's repression of the workmen's demonstration at Ancona on Sunday when several men were killed. The movement has extended to Bologna, Venon, Florence, Genoa, Milan, Tarin, Bergamo, Brescia, and numerous other cities of Italy.

Little disorder has been reported, but in this city there has been some stone throwing and window breaking and the cavalry has made occasional charges to disperse the crowds.

London Police Raid Suff Offices

Paris, June 9.—Another raid was carried out by the police today on the premises occupied by the Women's Social and Political Union, the militant organization. A thorough search was made for documentary evidence of the activities of the secretary.

After closing of the offices in Holloway early in May, the women established new headquarters in Westminster and today the detectives succeeded in collecting there quantities of documents, books and letters. The descent of the raiding policemen was unexpected and caused great excitement among the occupants of the offices, who after being searched were ejected. No arrests were made.

McReynolds is Opposed to Clemency

Attorney General Said to have Taken Unfavorable Report on Ryan Appeal to Cabinet Meeting.

[By Leased Wire to Evening Herald.]
Washington, June 9.—Attorney General McReynolds today took to the cabinet meeting his recommendations on the appeal for executive clemency of Frank M. Ryan, former president of the Structural Ironworkers' union, and twenty-nine other men convicted in the dynamiting cases.

While no official announcement of the decision of the attorney general was made it was understood in circles close to the president that his recommendations were unfavorable to the appeal. It was said Mr. McReynolds took the ground that the men had been given a thorough trial and that there was no good reason for interference by the president. It was regarded as probable that the president would approve the findings of the attorney general.

The convicted men are under instruction to surrender themselves either at Fort Leavenworth, Kan., or to the United States marshal at Indianapolis on June 25 to begin serving their sentences.

FOUR HOUR SATURDAY FOR FEDERAL EMPLOYEES

Broken Rails the Cause of 2763 Wrecks

Report on New Haven Shows 175 Deaths, 6,000 Injured and Three Millions Damage Result of Rotten Steel.

[By Leased Wire to Evening Herald.]
Washington, June 9.—In a report to the interstate commerce commission today on the cause of the wreck of the New York, New Haven and Hartford passenger train near Westerly, R. I., October 25, 1913, H. W. Belnap, chief inspector of safety appliances, finds that derailment of the train was due to a broken rail. The wreck resulted in the injury of 72 passengers and three employees.

In connection with his report Mr. Belnap pointed out that the derailments caused by broken rails since July 1, 1901, numbered 2,762, in which 175 persons lost their lives, 6,000 were injured and damages aggregated \$2,251,783.

RIBOT ANNOUNCES HIS CABINET COMPLETED

Senator Carries Out Difficult Undertaking Chiefly With Members of the French Legislature.

[By Leased Wire to Evening Herald.]

Paris, June 9.—Senator Ribot definitely accepted the French premiership this afternoon and announced the composition of his cabinet. It differed from the unofficial list issued this morning owing to several exchanges of portfolios.

Deputy Thophile Delcassé, decided to take the ministry of war instead of marine. Senator Chautemps becomes minister of marine instead of the colonies, which office remains vacant for the present. Deputy Joseph Nougues withdrew from the combination as he considered the parliamentary group to which he belongs not sufficiently represented.

The New Cabinet.

Paris, June 9.—Senator Alexandre Félix Ribot announced today that he had succeeded in forming a new French cabinet to succeed that of Premier Gaston Doumergue.

Five of M. Ribot's colleagues are senators and seven deputies. The list was given officially by M. Ribot follows:

Premier and minister of justice—Senator Alexandre Félix Ribot.
Foreign affairs—Senator Louis Rousseau.
Finance—Deputy Etienne Clement.
Marine—Deputy Théophile Delcassé.

War—Deputy Joseph Nougues.
Interior—Senator Paul Peyrat.
Public Instruction—Deputy Arthur Devossey.
Post Office—Deputy Jean Dupuy.
Colonies—Senator Emile Chautemps.

Commerce—Deputy Marc Reville.
Agriculture—Deputy Adrien Darrieu.
Labor—Deputy Maurice Maunoury.

WOUNDED IN THE WRIST IN DESPERATE SWORD DUEL

Paris, June 9.—A sword duel today between Senator Henri Berenger, representing Guadeloupe, who is editor of the *Action*, and Deputy Georges Poniat resulted in the deputy being wounded in the right wrist. The adversaries, who had quarreled over politics, were afterward reconciled.

COTTONWOOD THE CAUSE OF FREIGHT STATION FIRE

Fluff Believed to have Caught From Spark and Started Platform Blazing. Firemen Quickly Kill Flames.

Fluff from the mounting cottonwood trees is blamed for a fire that damaged the platform of the Santa Fe Railway at First street and Marquette Avenue at 2:15 o'clock this morning. The firemen found a good nest of cotton and it is believed that a spark started some of the fluff in blazing and that the cotton set fire to the platform. The cottonwood fiber is highly inflammable. No other cause for the blaze could be found.

The firemen were summoned by telephone. They found one end of the platform ablaze, but the fire was easy to control and the blaze was knocked in the head in short order. A chemical stream was used at first, but to make assurance doubly sure a line of hose was laid in and any lingering embers to revive trouble was knocked out of the platform. The damage done was not large.

CITY HALL TEST SUIT BEGUN IN LOCAL COURT

J. W. Palmer, in Role of Protecting Tax Payer, Lends Name to Action to Test City's Right to Get the Money.

All the preliminary steps having been taken to prepare for the action, it was announced this afternoon that the friendly suit to test the right of the city to give a bill of sale for the city hall in connection with the plan devised for financing the completion of the structure, would be started at once. The action is to be pushed with all speed, and it is expected that the supreme court will have passed on the matter perhaps by as early as next week.

J. W. Palmer, a retired business man, takes the part of the protesting taxpayer in the action. As a matter of fact, Mr. Palmer hasn't any objection at all to the "sale" of the city hall to the First National bank and the State National bank, who are prepared to lend the money, but for the purpose of the amicable suit he assumes the role of protestant. This afternoon, through Judge George S. Klock, who is his attorney in the matter, he is to file suit in the district court. At the same time the law firm of Marion & Wood, who worked out the proposed solution of the financing problem for the city hall committee of the council, will file answer to the suit. They represent the city and the two banks in the action, and Robert H. Creve, acting city attorney, is associated with them in the defense.

There is scarcely a well-stocked drug store anywhere but what you can easily obtain a box of "Mother's Friend" and in nearly every town and village is a grandma who herself used it in earlier years. A expectant mother can buy it to try this standard remedy for comfort.

Experienced Women Advise Mother's Friend

Because it is so perfectly safe to use and has been of such great help to a host of expectant mothers, those women, experienced in their maternal period, advise the use of "Mother's Friend."

Applied externally to the abdominal muscles its purpose is to relieve the undue tension upon the cervix and ligaments resulting from muscular expansion.

Through the surface of a network of fine pores threads all the glands, making emasculation. "Mother's Friend" is designed to so lubricate the muscular fibers as to avoid the unnecessary and continuous madding upon this myriad of nerves. It is a reflex action.

Applied to the skin it affords the proper massage to prevent colds.

Thousands of women have reason to believe in this splendid help under the trying ordeal of motherhood. Their letters are eloquent evidence of its great value to women. In use for many years it has come to be a standard remedy for the purpose.

CHRISTIAN IS FIRST KING TO WORK IN MOVIES

His Majesty Started on the Run to Rescue Dishevelled Young Woman Who Was Doing Strenuous Acting.

Paris, June 9.—King Christian of Denmark who recently paid an official visit to President Poincaré and Mme. Poincaré, probably is the only sovereign who has played the role of an actor in a moving picture drama.

The incident occurred at Hornbaek, a small watering place near the capital. A cinematograph company had arranged the setting for an unusual scene for the films. It was to be a shipwreck in which young woman, her child, and the woman's mother were participants. The king was promenading on the beach. Suddenly he noticed the unfortunate, their hair disheveled, who seemed to be calling for help. The king started bravely to rescue them when a young sailor, hero of the drama, picked them off the rocks with which they were encamped having lessened the chances of a fatal ending of the scene. The king finding he had been included in the picture was vexed and expressed the desire that it be destroyed. The last half of the drama had to be played without his assistance.

At every stage of the proceedings all delays will be eliminated, so that the city hall committee will either be in position to get the money needed or know that some other plan is necessary without loss of time. As Francis E. Wood, of Marion & Wood, said with a smile this afternoon, the lawyers are going to show how expeditiously legal matters can move when everybody wants them to. It is expected that the final decision on the question will be in hand not later than the week after next, and it may be handed down next week.

With or Without.

The case had reached a critical stage. Even the judge seemed to awaken to a live interest in the proceedings, for the most important witness was about to be cross-examined.

"So you are the lady's maid?" began the witness.
"Yes, sir."

"And where were you at 7 o'clock on the evening in question?"
"I was in my lady's room, sir."

"For what purpose?"
"I was dressing my lady's hair, sir."

The barrister turned forward and spoke slowly and impressively.
"Now think," he said, "I want you to be very careful in answering this question. Was or was not your mistress in the room at the time?"

Would Seem So.

The lesson was in natural history, and the new teacher had chosen the interesting but complex subject of the cat.

"Now children," she said, "tell me what sort of clothes pussy wears."

No reply.

"Come, come," said she, determined to extract the right answer by naming everything that pussy didn't wear, "does she wear feathers?"

A pained expression crossed the face of a little boy in the front row.
"Please, Ma'am," he asked pitifully, "ain't you never seen a cat?"
